Paw-sonal Portrait (Optional... but really fun!)

Would you like the Trip Travelers to magically join Murphy and Georgia at the destination? If so, we will need a JPEG image to create a whimsical watercolor portrait to include at the final stop of the Mystery Trip. Your photo doesn't have to be fancy, a casual pic from your camera galley is just fine; background in your photo is not an issue because the Trip Travelers will be magically transported from your pic into a Paw-sonal Portrait. Concerned about face recognition? We can add hats or sunglasses for fun. Or, if you wish, give us a JPEG with a back view for no identity worries (it still is a cute image).

Add hats and/or sunglasses to the Trip Travelers?
